GeoAstro Oman— Tour Guide

Time to discover the night sky

Stargazing at Ras Al Jinz Turtle Reserve

If you've spent your life looking up at the night's sky from busy urban areas, be prepared for a surprise! Seeing the twinkly star-studded sky across the dark sky of Ras Al Jinz Turtles Resort is a real spectacle that you won't forget in a hurry.

We offer the clearest night time views of the moon, stars, planets and deep sky objects

Stargazing

Stargazing, is enjoyment of the stars. Actually, it's not just about stars, other objects visible in the night sky include galaxies (groups of billions of stars), planets (which orbit stars) and other rocky things flying around in space, like asteroids and comets.

Sungazing

through a telescope involves observing the Sun using specialized equipment designed for solar viewing, such as solar filters or dedicated solar telescopes. These instruments have filters that block most of the Sun's intense light and harmful radiation, allowing safe observation
